EXPERIENCE

Frontend and UI/UX

Behdad Raya

2024 - Present karaj, Iran

- Redesigned the user interface to enhance user experience, achieving a **90%** increase in customer satisfaction.
- Revamped page structures to reduce complexity and simplify workflows for different users, including veterinarians and receptionists.
- Enhanced the functionality of pages and reduced software code volume by up to **80%** through modern development principles.
- Added new features such as **action bars for quick access** to different sections, improving overall usability and efficiency.
- Implemented design updates tailored to manage key clinic operations, including accounting, inventory management, client management, and medical treatment.
- Developed a user-centric workflow system for five different user categories, enabling a smoother operational process. This initiative contributed to a **200%** increase in user engagement and overall productivity improvements throughout the team.
- Highlight your accomplishments, using numbers if possible.

EDUCATION

Bachelor's degree, software engineering

Shariati Technical and Professional College

2022 - Present Tehran, Iran

SUMMARY

As a skilled Frontend Developer, I specialize in creating dynamic, user-centric web applications. My expertise spans across JavaScript, jQuery, Bootstrap, and custom component development. I focus on optimizing UI/UX performance, handling complex grid configurations (e.g., AG Grid), and managing interactive elements such as checkboxes, radio buttons, and custom date pickers. With a strong foundation in both frontend and backend development (PHP and SQL), I deliver seamless, integrated solutions that enhance user experiences and improve application efficiency.

SKILLS

JavaScript	Angular	React	OOP	
SQL	Figma	UI/UX	PHP	HTML/CSS
